

JOSE DA SILVA

IT Technician | IT Support

Tordera, Barcelona · Tel: 722 827 664 · josedaaaasilva@gmail.com

PROFESSIONAL PROFILE

IT Systems and Networks student (ASIR) with previous training in Microcomputer Systems and Networks (SMX) and hands-on experience in IT support. I have experience in user support, maintenance and configuration of computers, networks, servers and databases. I am currently broadening my knowledge of Linux and Windows system administration, SQL, networking and task automation through scripting. I am a responsible, adaptable person who is eager to keep learning. I adapt easily to different working environments and I am able to work in a team, resolve incidents and handle high-pressure situations.

EDUCATION

Higher Degree in Networked Computer Systems Administration 2025 – Present

IES Sa Palomera, Blanes

- Currently in my first year of ASIR, expanding my SMX knowledge towards advanced Linux/Windows server administration, database servers and SQL, network management and task automation through scripting.

Intermediate Degree in Microcomputer Systems and Networks 2023 – 2025

IES Lluís Companys, Tordera

- Able to manage IT infrastructures, resolve technical incidents and ensure connectivity and data security in small and medium-sized companies.

Compulsory Secondary Education 2019 – 2023

IES Brianxa, Tordera

WORK EXPERIENCE

IT Technician 06/2026 – 08/2026

Hardysoft Consultorías

- Configuration and administration of Windows and Linux servers and network resources, task automation through scripting and collaboration on infrastructure and service deployment projects, dealing with clients professionally and helping users who were struggling.

IT Assistant 05/2024 – 07/2024

Tordera Town Council

- Technical support for users, incident resolution and equipment maintenance.
- Installation and configuration of computers, printers and servers, as well as inventory management and basic networking and security tasks.

Waiter 2023 – Present

La Masia, Tordera

- Customer service, order management and warehouse organisation. Experience working in teams and in fast-paced environments, developing adaptability and the ability to handle pressure.

PROJECTS DURING MY STUDIES

Design and deployment of IT infrastructures, from the physical installation of networks to the administration of Windows/Linux servers and security policies. Currently developing a hospital digitalisation project, integrating high-availability systems and automating critical tasks with programming, databases and time tracking.
